	<b>Examiner</b> Alison K. Pickard	<b>Art Unit</b> 3673	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 3 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Hazen (3,848,379).

Hazen discloses an apparatus comprising a sealing member having an attachment portion (either 24 or 14) fixed to a surface and a seal portion 25 that is a deformable segment positioned fully within a receiving aperture defined by at least one of the surfaces 46. A coating 48 is disposed on the sealing member and the two surfaces. The coating defines a splice coincident with a distal end of the sealing member (see line 22 in Fig. 4) such that the coating is continuous across the seal and at least one of the surfaces. portion 14 is considered a “filler” between the deformable segment and surface. If portion 24 is the attachment portion, then element 14 is an engagement member further defining the aperture and receives the deformable segment of the seal member (see line 43 in Fig. 4).

3. Claims 1, 3, 5 are rejected under 35 U.S.C. 102(b) as being anticipated by LaRoche (4,866,898).

LaRoche discloses an apparatus comprising a sealing member having an attachment portion 50, seal/deformable portion (40), aperture, 22, coating 26, and filler 42.

***Allowable Subject Matter***

4. Claims 2, 9-14, 25-27, and 29-36 are allowed.
5. Claims 4, 6-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

Although the language added to claim 1 is similar to allowable claim 25, the method steps impart additional limitations not present in the product claims. Therefore, LaRoche and Hazen still apply.

***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
